The ballot was not available to be approved at this time. Jennifer will contact Mary for more information, and will be approved in a separate action.

**Member Meeting:** Jennifer has reserved a meeting room at OhioHealth for Wednesday, April 29, 2020 for a General Member Meeting, barring any problems being able to meet because of the COVID-19 pandemic. The board agreed to this as a tentative date. Jennifer will be checking on the available technology in the meeting room.

**Black Breastfeeding Week 2020 Project:** Misty Hughes in Cleveland is interested in working on this project, as is Cissy Watkins in Columbus, and Melissa Courts in Dayton. Stephanie is the point of communication between participants and the board. She has not been able to speak to Janelle McClain. Trumbull County Coalition was also mentioned as a possible participant.

**ODH Workplace Project:** OBA is expecting to be able to participate in a grant-funded program with ODH, Lori is waiting on paperwork for this project, which will focus on workplace support through EveryMother as contractor for the program. We are still waiting on more information from EveryMother

about this program. ODH has also contacted OBA about participating in a messaging/social media campaign, and the OBA board discussed, revised, approved and submitted a letter supporting WIC's support of breastfeeding in response to this request from Meagan Richardson. ODH is also going to conduct focus groups in conjunction with the workplace project, which will focus on minority and underserved populations and their information needs. More information about this is anticipated. Communication from EveryMother or ODH about the workplace project is not being received.

**Display Materials:** Lori is preparing materials for Breastfest, including handouts about the childcare project and other projects, also Ohio coalitions. There is some question if Breastfest will be cancelled.

**USBC information:** The 2020 USBC NBCC has been postponed until 2021. Ann participated in a working call to help create a culture plan, a short document that will be used to outline how workplaces must shift their culture to support medical staff and trainees to meet their own breastfeeding goals as a way to bring support for breastfeeding into widespread practice and skills knowledge.

Childcare (Ann): The program is up and running, and is asking for help reviewing applications.
